

The last customer had gone and the clerks were half way home. We are all kept busy from the minute we arrive until closing time and all are very glad to start for home.

Saturday was the best day in our history and the last three days have been more than good. And there is every evidence of a continuance.

Our salesman started south this afternoon on his three months trip. We changed this man from the north to the south as his parents live in Kanab and he wants to visit his mother who he has not seen for a year and a half. His wife also lives in the south.

We are now preparing the samples for the new man we hired to go north and when he gets

away it will be a relief for us. You must excuse this talk about business, Stella, but it is the only thing I give my attention to, and if you wont stay in to get me interested in other things you will not get out of patience if I tell you of nothing but business, I hope.

I have heard that you are busy putting up fruit and making preserves and otherwise preparing for the winter appetites. Dont work too steadily. Take care of yourself girlsie and dont cut or burn your fingers more than you can help, and let me know when I can see you again. Yours with loves
Bent
